

CASHEW-SHELL BIO-REFINERY

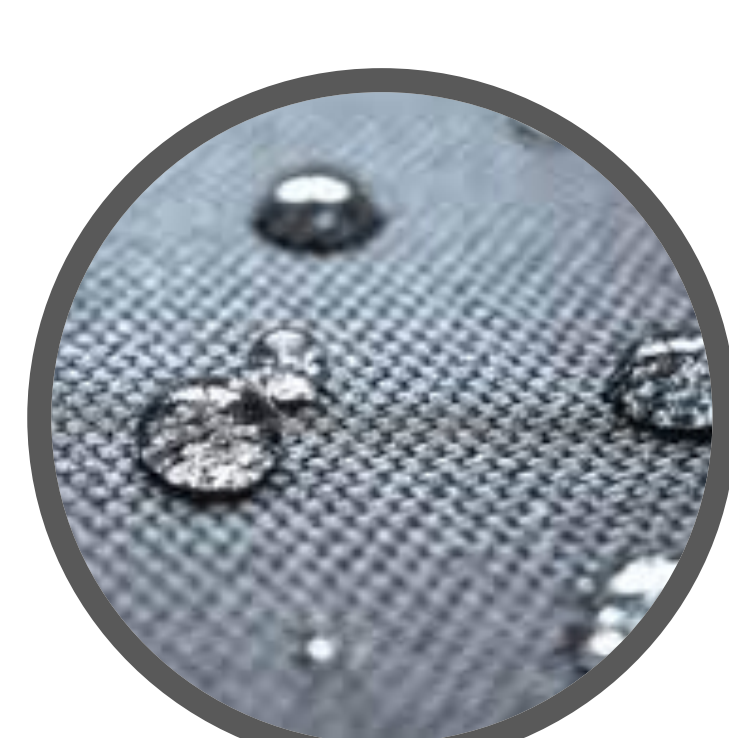

CSBR is a bio-refinery of low-toxic, high-performing bio-aromatic from the shells of cashew nuts.

We transform shell-oil into cardanol and break it down into monomers, replacing traditional phenolic-bases.

-  **Low Toxicity**
-  **Ready Supply-Chain**
-  **Proposed Carbon Neutrality**
-  **4,5MTn of Shells Worldwide**
-  **High Performance (efficacy per unit)**
-  **Approachable Prices**
