

# Hexafly Insect Oil

Hexafly insect oil is a natural fat derived from the larvae of the black soldier fly.

Hexafly insect oil is a natural food source for animals that will promote their health in a natural and sustainable way.

Hexafly insect oil can be used in a variety of animal feeds which makes for a nutritious, sustainable and high energy food source.

Hexafly Insect Oil is suitable for the pet food, animal feed and food industries and is a sustainable alternative to currently used palm oil and animal fats.

Hexafly Insect oil offers a highly beneficial combination of healthy fatty acids, unsaturated fats and other essential nutrients.

## Product Safety

Hexafly Insect Oil is in full compliance with all current regulations on animal and fish feed safety.

## Storage

Hexafly Insect Oil should be stored below 25°C in a moisture free environment and away from direct sunlight. Hexafly Insect Oil has a shelf life of 12 months when stored in the correct conditions.

## Packaging

Drums and IBCs. Other packaging options may be available upon request.

# Hexafly Insect Oil

## Nutritional Profile\*

Fat 93.1%

Ash 0.7%

Protein 1.5%

Saturated fatty acids 47%
